

Certified quality & safe processes

- We create the framework conditions for professional processes and quality products
- Our services and processes are transparent and subject to a continuous improvement and development process
- We are responsible for complying with legal constraints and regulatory and normative requirements and ensure the Maintenance effectiveness of our Quality Management System

Customer & supplier satisfaction

- Appreciation is our basis for a trusting cooperation
- The provision of a market-driven portfolio at attractive prices is just as much our goal as a reliable delivery capability
- We see every interaction with our partners as an opportunity to create value

Health is a
matter of trust

axicorp stands for affordable
health care with high quality
products

Sustainability

- We actively deal with opportunities and risks to secure our future viability
- Cost efficiency and the economic handling of resources to maintain an attractively priced pharmaceutical supply are what determine our actions

Employee satisfaction

- Our employees are the key resource for our success. In addition to a good entry, corporate training and continuing education as well as the promotion of young talent are important to us
- Success is a key component of satisfaction. As the basis for this, we offer a partnership environment with plenty of room to assume responsibility
- Our goals are SMART (specific, measurable, attractive, realistic, timed)
